

Seasonal adjustment of economic data

Exercises: Outlier and calendar adjustment

Daniel Ollech, Julian LeCrone / Deutsche Bundesbank, DG Statistics
Seasonal adjustment, 06 November 2025

Exercise

Group work: Do a calendar and outlier adjustment for your group's time series

- Test JD default regressors
- Construct your own regressor and apply them

Exercise

All data: Chile

- Group 1: Monthly GDP
- Group 2: Mining
- Group 3: Manufacturing industry
- Group 4: Wholesale and retail trade
- Group 5: Personal services
